1. Getting Started — Login & Dashboard

Edunex is a cloud-based School Management Platform. There is nothing to install — everything runs in your web browser. This chapter walks you through your first login and explains the main dashboard.

How to Login

1	Open the app Visit https://frontend-x1eicmcna-dhanushxd4s-projects.vercel.app in any browser (Chrome, Firefox, or Edge recommended).
2	Choose your role Select School Admin, Teacher, or Super Admin depending on your account type.
3	Enter credentials Type your registered Email and Password, then click Login.
4	Dashboard loads After login you land on your school dashboard showing live statistics — students, fee collection, upcoming exams, and recent calls.

■ **Tip:** Bookmark the link so you can open Edunex with one click every day.

Dashboard Overview

Widget	What It Shows
■ Student Count	Total enrolled students across all classes.
■ Fee Collection	Amount collected this month vs. total expected.
■ Calls Today	Automated voice calls made to parents today.
■ Pending Exams	AI-generated exams waiting to be published.
■ Bus Routes	Number of active bus routes currently running.
■ Alerts Sent	WhatsApp / SMS messages sent this week.

2. School Setup & Profile

Before adding students, complete your school profile. This information appears on reports, fee receipts, and parent communications.

Complete Your School Profile

1	Go to Settings Click the Settings icon (■) in the left sidebar.
2	School Details Enter School Name, Principal Name, City, State, Board (CBSE / ICSE / State), and Medium (English / Telugu / Hindi).
3	Contact Info Add your official School Phone and Email address.
4	Save Changes Click Save. These details appear on all system-generated reports.

Plan Types

Plan	Included Features
Starter	Up to 200 students. Basic calls, fees, and marks.
Professional	Up to 1000 students. AI exams, WhatsApp, bus tracking.
Elite	Unlimited students. All features + AI avatar + priority support.

■ **Tip:** Contact support to upgrade your plan. Downgrading removes access to advanced features.

3. Managing Students

Students are the core of Edunex. Every fee record, exam mark, attendance call, and bus seat is linked to a student profile.

Adding a Student

1	Open Students Click Students in the left menu.
2	Add New Click the + Add Student button (top right).
3	Fill Details Enter Name, Class, Roll Number, Parent Mobile Number, Parent Name, and Parent Email (optional).
4	Fee Status Set initial fee status: Paid, Pending, or Overdue.
5	Save Click Save Student. The student appears in the class list instantly.

■ **Tip:** You can import many students at once using the Upload CSV button. Download the sample template first.

Student Fields Reference

Field	Description
Name	Full name of the student.
Class (cls)	e.g. 6A, 7B, 10A
Roll	Roll number within the class.
Phone	Parent's WhatsApp-enabled mobile number (include country code: +91XXXXXXXXXX).
Parent	Name of the parent/guardian.
Parent Email	Optional — used for email reports.

Field	Description
Fee Status	paid / pending / overdue
Absent	Checked automatically when absent call is triggered.

4. Managing Teachers

Teachers can be assigned to classes and subjects. They can log in to mark attendance, add marks, and upload course lessons.

Adding a Teacher

1	Open Teachers Click Teachers in the left menu.
2	Add New Click + Add Teacher.
3	Fill Details Enter Name, Subject (e.g. Mathematics), Classes taught (e.g. 9A, 9B, 10A), Phone, and Email.
4	Status Set to Active or On Leave.
5	Save Click Save. The teacher can now log in using their email.

Teacher Login Credentials

Teachers log in using the same frontend URL. Select Teacher at the login screen and enter their registered email. Passwords are set by the School Admin in Settings → Teacher Accounts.

■ ■ **Tip:** Teachers can only see students in the classes assigned to them. They cannot view or edit fee records.

5. AI Exam Generator (Google Gemini)

Edunex uses Google Gemini AI to automatically generate high-quality multiple-choice questions for any subject and class. This saves teachers hours of question-paper preparation.

Generating an Exam

1	Open Exams Click Exams in the left menu.
2	New Exam Click + Create Exam.
3	Set Parameters Enter Exam Title, Subject, Class, Total Marks, and Date. Then type a Topic — e.g. 'Photosynthesis for Class 8 Biology'.
4	Generate Click Generate with AI. Gemini creates 10–25 questions in seconds.
5	Review & Edit Read each question. You can edit, delete, or add questions manually.
6	Publish Click Publish to make the exam visible to students. Draft exams are hidden.

■ **Tip:** Be specific with the topic. Example: 'Newton's Laws of Motion — 15 MCQs for Class 9 CBSE' gives better results than just 'Physics'.

Exam Status

Status	Meaning
Draft	Only visible to the teacher. Students cannot see it.
Published	Visible to students in the assigned class. Marks can be entered.

6. Voice Call System (Twilio)

Edunex calls parents automatically using the Twilio voice service. No manual dialling is needed — the system calls and plays a recorded or text-to-speech message. Parents respond by pressing 1 (acknowledged) or 2 (will visit).

Types of Automated Calls

Call Type	When / What
Absent	Called when a student is marked absent. Message: 'Your child [Name] was absent today.'
Fee	Called when a fee is overdue. Message: 'Outstanding fee of Rs.[amount] for [Name].'
Alarm	Emergency alert call to all parents in a class or the whole school.
Demo	Test call to verify your Twilio number is working.
Custom	You type any message and it is read out to the selected parents.

Triggering a Call

1	Mark Absent Go to Attendance, select a class date, and tick absent students.
2	Auto Call Click Call Parents. The system calls all absent students' parents simultaneously.
3	Track Results Go to Calls Log to see status — Completed, No Answer, or Failed for each call.

■ ■ **Tip:** Calls are charged per minute on your Twilio account. Check your Twilio balance regularly to avoid service interruption.

7. Fee Management & Razorpay

Edunex tracks fee collection per student, per term. Overdue fees trigger automatic voice calls and WhatsApp reminders. Payments can be collected online via Razorpay.

Adding a Fee Record

1	Open Fees Click Fee Management in the left menu.
2	Select Student Search by name or class, then click the student.
3	Add Fee Click + Add Fee. Enter Term (e.g. Term 2), Total Amount (Rs.), Amount Paid, and Due Date.
4	Status System auto-calculates Due amount and sets status to Paid, Pending, or Overdue.
5	Save Click Save Fee Record.

Online Payment via Razorpay

When Razorpay credentials are configured, a Pay Now button appears on each fee record. Parents click it, pay via UPI / card / net banking, and the fee status updates automatically.

Field	Meaning
Total	Full fee amount for the term.
Paid	Amount already collected.
Due	Total minus Paid (auto-calculated).
Status	Paid (due=0), Pending (due>0, not overdue), Overdue (past due date).

■ **Tip:** Use the Send Fee Reminder button to instantly WhatsApp/call all overdue fee families.

8. WhatsApp & SMS Alerts

Send instant WhatsApp messages to parents using the 360dialog integration. Messages support both English and Telugu. You can send to individual parents, a whole class, or the entire school.

Sending a WhatsApp Alert

1	Open Alerts Click Alerts & Notifications in the left menu.
2	Compose Type your message in English. Optionally add a Telugu translation in the second box.
3	Select Recipients Choose: All Students, Specific Class, or Individual Parent.
4	Channel Pick WhatsApp, SMS, or Both.
5	Schedule or Send Now Click Send Now to deliver immediately, or set a future date/time to schedule.
6	Track View delivery status in the Alerts History tab.

■ **Tip:** Use approved WhatsApp templates for promotional messages. Transactional messages (fee reminders, exam dates) can be sent freely.

Common Alert Templates

Template	Sample Message
Exam Reminder	Dear Parent, [Student Name]'s exam is on [Date] at [Time]. Please ensure they are prepared.
Fee Reminder	Dear Parent, fee of Rs.[Amount] for Term [X] is due on [Date]. Pay via the school app.
Holiday Notice	School will remain closed on [Date] for [Reason]. Classes resume on [Date].

Template	Sample Message
Event Invite	You are invited to [Event] on [Date] at [Time]. Venue: [School Name].

9. Bus Route Tracking

Manage all school buses from one screen. Add routes, assign drivers, list stops, and share the Google Maps link with parents so they can track the bus in real time.

Adding a Bus Route

1	Open Bus Routes Click Bus Tracking in the left menu.
2	Add Route Click + Add Route.
3	Route Number Enter a short identifier, e.g. Route 1, Route 7A.
4	Driver Info Enter Driver Name and Driver Phone Number.
5	Add Stops Click + Add Stop for each pickup point. Enter stop name and estimated time.
6	Maps Link Paste the Google Maps link for the driver's phone so parents can track live location.
7	Student Count Enter how many students use this route.
8	Save Click Save Route. Parents can now see bus details in the parent portal.

■ ■ **Tip:** This was the source of fake data. The database has been cleaned. All bus routes you add now are real data only.

Bus Route Fields

Field	Description
Number	Short route identifier (Route 1, 7A, etc.)
Driver	Driver's full name.

Field	Description
Driver Phone	Driver's mobile number (+91XXXXXXXXXX).
Stops	List of stops with names and arrival times.
Maps Link	Google Maps link for live tracking.
Student Count	Number of students on this route.
Status	Active (running) or Inactive (suspended).

10. Admission & Enquiry Management

Track all admission enquiries from parents who are interested in joining your school. Move them through the pipeline from New → Called → Interested → Admitted.

Recording an Enquiry

1	Open Enquiries Click Admissions in the left menu, then Enquiries tab.
2	Add Enquiry Click + New Enquiry.
3	Parent Details Enter Parent Name, Phone, Child's desired Class, and Source (Walk-in / Phone / WhatsApp / Online).
4	Notes Add any conversation notes.
5	Save Click Save. Status is automatically set to New.
6	Follow Up Call the parent and update status to Called, Interested, Admitted, or Dropped.

Admission Application Form

The public-facing admission form (Admissions tab) can be shared with parents via WhatsApp. When a parent fills it online, it appears in your Admissions queue for review.

Status	Meaning
New	Just received. No contact made yet.
Called	You have called the parent.
Interested	Parent confirmed interest, likely to admit.
Admitted	Student enrolled. Convert to full student record.
Dropped	Parent decided not to admit.

11. Online Courses & Lessons (LMS)

Edunex includes a built-in Learning Management System (LMS). Teachers can create courses, add video lessons, and share learning material with students online — perfect for holidays, exam preparation, or hybrid learning.

Creating a Course

1	Open Courses Click Courses in the left menu.
2	New Course Click + New Course.
3	Course Details Enter Title, Subject, Class, Thumbnail image URL, and Description.
4	Assign Teacher Select the teacher responsible for this course.
5	Save as Draft Save. The course is hidden until published.
6	Add Lessons Open the course and click + Add Lesson for each topic.
7	Publish When ready, click Publish. Students can now access all lessons.

Adding a Lesson

Field	Description
Title	Lesson name, e.g. 'Chapter 3 – Human Digestive System'.
Content	Rich-text notes, explanations, or chapter summary.
Video URL	YouTube or Google Drive video link for the lesson.
Order	Sequence number (1, 2, 3...) to sort lessons correctly.

Field	Description
Duration	Estimated time in minutes to complete the lesson.

12. AI Avatar Announcements (D-ID)

D-ID creates a realistic AI avatar video that reads out any text you provide. Use it to deliver polished video announcements from the Principal — without actually recording a video.

Creating an Avatar Announcement

1	Open Announcements Click AI Avatar in the left menu.
2	Write Script Type the announcement text, e.g. 'Dear Parents, the Annual Day function will be held on...'
3	Choose Avatar Select from available avatar styles (formal, casual).
4	Generate Click Generate Video. D-ID processes it in 30–60 seconds.
5	Download / Share Download the MP4 video or share the link via WhatsApp to all parents.

■ **Tip:** Keep scripts under 200 words for fastest processing. Longer scripts take up to 3 minutes.

Best Use Cases

Use Case	Example
Principal Announcements	Holiday notices, exam dates, school events.
Fee Notices	Personalized video fee reminders from the Principal.
Results Day	Congratulations message for toppers.
Parent Meeting Invite	Formal PTM invitation video shared on WhatsApp groups.

13. Admin Super Dashboard

The Super Admin account has access to all schools registered on the Edunex platform. Use it to manage school subscriptions, monitor usage, and troubleshoot.

Super Admin Login

1	Open Login Page Go to the frontend URL.
2	Select Super Admin Click Super Admin at the role selector.
3	Enter Password Use the Super Admin password set during system setup (SUPER_ADMIN_PASSWORD in backend .env).
4	All Schools View You can see every registered school, their plan, student count, and status.

■ ■ **Tip:** Never share the Super Admin password. Change it immediately if you suspect it has been compromised.

Super Admin Capabilities

Feature	Description
View All Schools	See all registered schools with plan, status, and student count.
Change School Plan	Upgrade or downgrade a school's subscription plan.
Suspend / Activate	Set a school status to active, inactive, or trial.
Usage Monitoring	View calls made, messages sent, and exams generated per school.
Reset Password	Reset a school admin's password from the control panel.

14. Frequently Asked Questions

Q: How do I reset my password?

A: Go to the Login page and click Forgot Password. A reset link is sent to your registered email.

Q: Can multiple staff members log in at the same time?

A: Yes. Each teacher has their own login. Multiple people can use Edunex simultaneously.

Q: Is student data safe?

A: All data is stored in Supabase (PostgreSQL), a secure cloud database. Data is encrypted at rest and in transit over HTTPS.

Q: What happens if I run out of Twilio balance?

A: Calls will fail silently. Top up your Twilio account at [twilio.com](https://www.twilio.com) to restore the call service.

Q: Can I export student data?

A: Yes. Go to Students → Export CSV. You get a spreadsheet with all student records.

Q: How many students can I add?

A: Starter: 200, Professional: 1000, Elite: Unlimited.

Q: Does Edunex work on mobile?

A: Yes. The frontend is fully responsive. Open the URL in Chrome on any Android or iPhone.

Q: How do I add bus driver data?

A: Go to Bus Tracking → + Add Route. Fill in the driver name, phone, and stops. All previous fake data has been cleared.

Q: Can I schedule WhatsApp messages for later?

A: Yes. In the Alerts section, set a future date and time before sending.

Q: Who do I contact for technical support?

A: Email comicbookworldlandofcomic@gmail.com with a description of the issue and a screenshot.

15. Support & Contact

If you need help or encounter any issue, our support team is ready to assist. Please include your school name, a screenshot, and a clear description of the problem.

■ Email Support	comicbookworldlandofcomic@gmail.com
■ Frontend URL	https://frontend-x1eicmcna-dhanushxd4s-projects.vercel.app
■■ API Health Check	https://edunex-api-production.up.railway.app/health
■ Supabase Project	qjzfapbkiesjqwosmzb (managed via supabase.com)
■ Railway Backend	edunex-api-production.up.railway.app

Reporting a Bug

1	Describe the issue What were you trying to do? What happened instead?
2	Take a screenshot Press Windows + Shift + S to capture the screen.
3	Note the error Copy any red error message that appears on screen.
4	Email support Send all the above to comicbookworldlandofcomic@gmail.com with subject: Edunex Bug Report.

Quick Checklist Before Contacting Support

- Is the app loading? Try clearing browser cache (Ctrl+Shift+Delete).
- Is the backend up? Visit the health check URL above — it should show {status: ok}.
- Did a recent change cause the issue? Note what you last changed.
- Are you using a supported browser? Use Chrome or Firefox for best results.

Thank you for choosing Edunex!
We are committed to making school management simple, automated, and effective for every school in India.
